Unique
design,
endless
options!

We
love
design

Unique design,
endless options!

It requires, no doubt, a continuous inspiration, and profound creativity to give a spirit and character to a metal mass (industrial product) and to bring it to an extraordinary stand.

Our inspiration and creativity are nourished by the extraordinary charm of the design. We process the essence of the impressive idea, which we have cultivated in all these processes, on the wings of the vehicles and we present them their freedom.

What we mean by quality

Each vehicle produced at the factory is a part of repetitively produced series of mass products.

We give our vehicles the value they deserve, the confidence they should bear, and the character they need. Each part we use, each screw we tighten and every drop of paint we spray serves an enormous purpose. It is because we shape the spirit of the vehicle you dream of. And, every soul in the universe is unique.

Additionally, we gather EU Type Approvals for all kinds of Ilesbus vehicles. We proudly put ourselves in a position to be first in the market with our quick actions on certifying our special designs. Ilesbus R&D engineers ensure our designs to qualify with the necessary documentation for our clients to prevent any obstacles.

VEGAS

○
New design,
stylish outlook.

Vegas offers comfort and luxury together like all Ilesbus designs do, with a different touch of outliners for different tastes. We emphasize our signature on design, with this latest modern outliners.

The design and material selection of Vegas will meet all of your expectations above and beyond.

RENAISSANCE / HARMONY

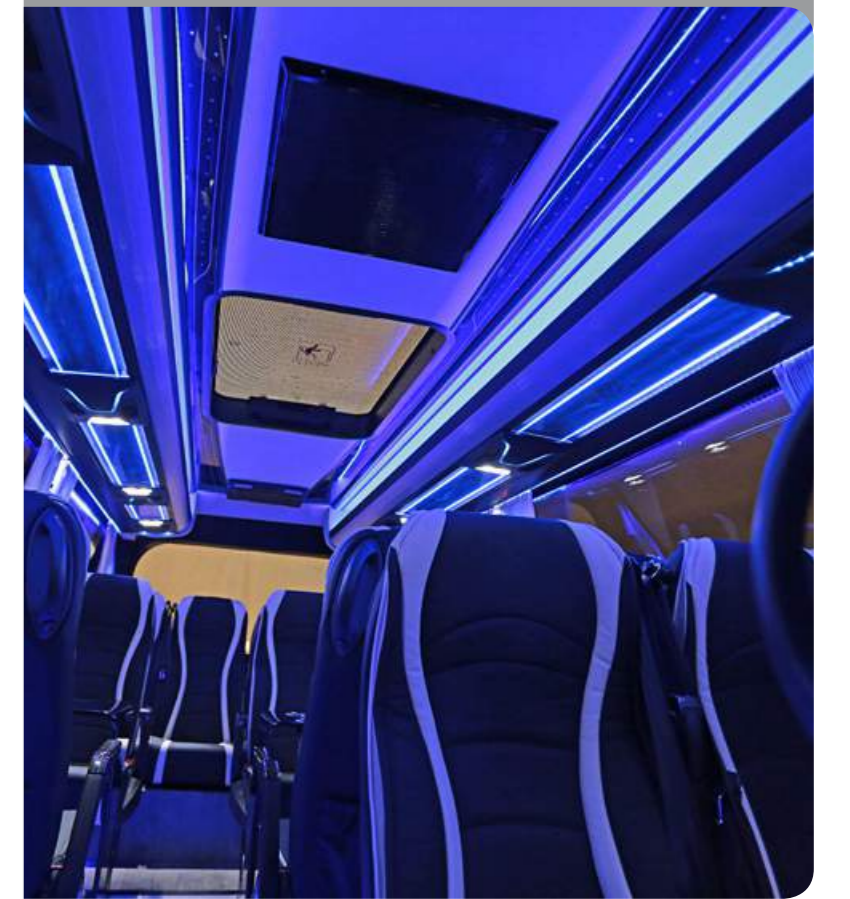

We have
reconstructed
the comfort!

Inspired by the aesthetics of
art, especially for the design
revolution with our new
projection and engineering work,
all in our special look Sprinter.

Mercedes-Benz design engineers
continuously work on new designs
considering the new perceptions
with individual creativity.

○ Each hardware inside used for design represents perfection in our buses. The best quality material preference together with the best workmanship makes it unique, in all details.

Elegant design and having an unusual appearance with functional parts Harmony, offering a much more in-use experience than their counterparts.

With a high standard of comfort and quality, Harmony has it all for your satisfaction.

CALISTA MAN

o Ilesbus' latest design is on another level in production, engineering, and workmanship.

Calista is designed as comfortable travel bus, projected on the comfort line driving, comfort level for passengers.

○
Combined with the highest technology and design, Calista building on MAN's most powerful engine and chassis; giving a secure, comfortable, luxurious and delightful journey.

Calista MAN designed by creativity and engineering, to make the passengers feel comfortability and luxury at the same time.

CALISTA ATEGO

Different
options for
different needs.

Ilesbus offers Calista
Chassis choices for
different preferences.

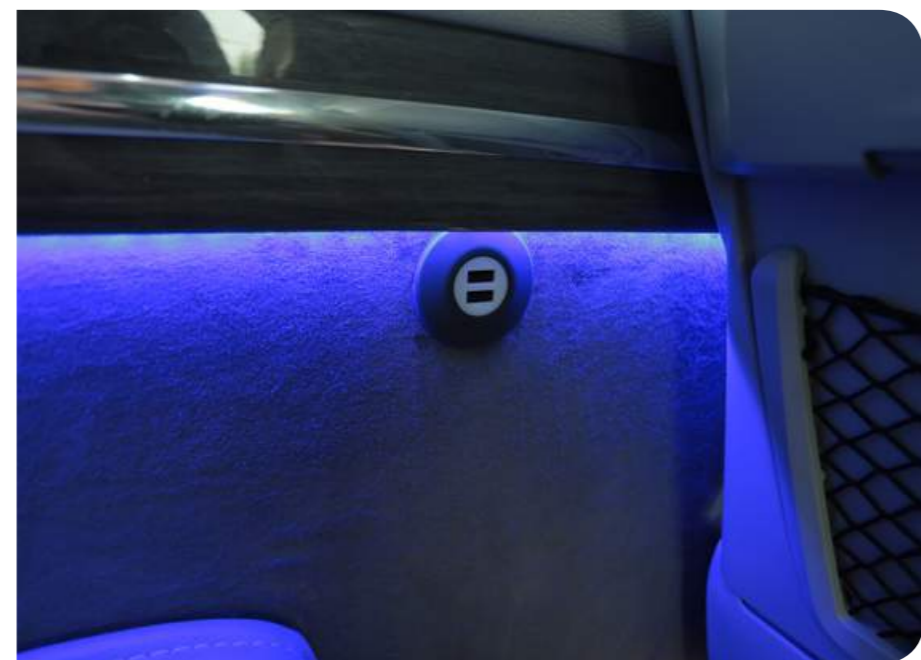

Combined with highest technology and design of Calista building on Mercedes Atego most powerful engine and chassis design, giving secure, comfortable, luxurious and delightful journey.

Standing by your side with its experience and superior quality in every field as well as continuing to support you in every field by continuously adding new products to its product wide range, Ilesbus also improves its quality by using the latest technology, quality materials, and practical solutions.

Calista Atego, offers Ilesbus quality with all featured essentials for passengers use.

IVECO / GLANCE

○ We have
reconstructed
the comfort!

Designed by creativity
and engineering, the bus
IVECO Glance to make
the passengers feel
comfortability and
luxury at the same time.

Whether used for short journeys or longer trips, Ilesbus Iveco Glance design, offers Ilesbus quality with all featured essentials for passengers use.

We as Ilesbus offer proudly new level of comfort, state of the art design, incorporating dark double glazed privacy side glass, high capacity air conditioning, spacey inside, comfortable and stylish seats, new unique techno outdoor design with spacious luggage areas.

TOURISM BUSES

○ Tourism buses are designed with spacious areas on sides, and rear baggage places.

This design has many options for different door blades, different iso glass shapes giving customers choices on their requests and needs.

It also attracts with a unique and sophisticated look in design with outside parts and inside we provide luminous design, comfort, luxury, and quality together.

ACCESSIBLE / SCHOOL BUSES

Accessible buses make transporting easier for all beneficiaries. We have flexibility with design as options of VIP and middle-class models. These buses have rear access by useful ramp or automatic lifts.

Flat floor buses can be used in tourism, school buses, and service sectors.

○
We aim to provide
comfort and quality
in all our buses.
